

IN DAILY USE SINCE AUGUST 2026

WICHITA FAMILY VISION · WICHITA, KANSAS

Every front desk question used to land on the office manager. **Now the answer is one search away.**

About 200 hours

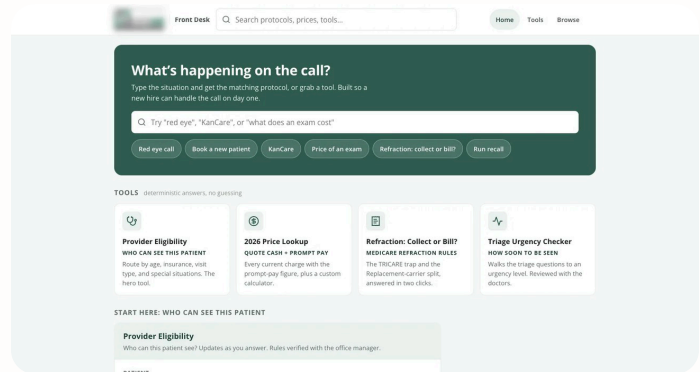

a year back, estimated from the clinic's own numbers

About \$4,500 a year

in front desk pay

35 pages, 41 prices

written from the clinic's own files

The live knowledge base, with the clinic logo blurred.

Before

BY HAND

Where Answers spread across 15 spreadsheet tabs, several documents and one manager's memory

On a call A question meant ten minutes of digging, or a patient on hold

Prices Several price lists in one sheet, and nobody sure which was live

After

KNOWLEDGE BASE

Where One app on every front desk screen, with one live price list

On a call Anyone at the desk types the situation and gets the clinic's own answer in seconds

Prices Two managers keep it current themselves, with one-click undo

"This is highly valuable, both in the short term and long term. It's already saving a lot of time."

Jill Romines, Front Office Manager, Wichita Family Vision

How we got the numbers. About four questions a day that took ten minutes of digging now take one search: about 200 hours a year, roughly \$4,500 in pay. Halving the six months a new hire took to stop asking, for two or three hires a year, adds \$8,000 to \$12,000. The same system now runs at a dental practice in California.

Stephens AI. We diagnose where practices can save time and increase profit, then build the solutions that get them there.
