

● INDEPENDENT HEALTHCARE PRACTICE · OFFICE MANAGER AND PAYROLL

● LIVE SINCE SPRING 2026

Time off used to run on paper slips and a notebook. Now a request takes one tap on a phone.

STAFF TIME PER REQUEST

~~15 to 20 min~~

~1 minute

The before figure covers the manager and payroll. The after figure is the manager's part.

20 to 30 requests a month
counted from the live request log

60 to 100 hours a year
handed back to the office

Every other Monday, 6am
the payroll sheet shows up on its own

PTO Request: Jordan Reyes, 10/15/26 to 10/16/26

Employee Name *

Choose

Your initials as they appear on the office calendar (e.g., TSM, JDR).

THE REAL APPROVAL EMAIL AND FORM · SAMPLE DATA

BEFORE

- An employee filled out a paper slip and handed it over in person
- The manager looked up the balance and checked the calendar by hand, every time
- Approved slips sat in a notebook until payroll, then got keyed in one by one
- Nothing could be approved away from the desk

AFTER

- A short form from any phone or office computer
- The approval email already shows the balance before and after, plus any coverage conflict
- One tap to approve or deny, and the attendance record, calendar and employee notice update on their own
- A payroll sheet with the same columns lands every pay period

How we got the numbers. The before figure is the practice's own, written down when the process was scoped: 15 to 20 minutes per request. The after figure is the manager's part: read one email, tap once. Payroll still enters the hours, now from one sheet. It all runs on office software the practice already had, with no new logins.
